NI Healthcare Project of the Year WINNER!!!

The multi-disciplinary, cross-border project BREATH (Borders and Regions Airways Training Hub) has won Asthma / COPD Project of the Year at the 19th Northern Ireland Healthcare Awards held at the Europa Hotel Belfast in February.

The Northern Ireland Healthcare Awards reward excellence, professional achievement and recognise the outstanding contribution the healthcare profession has made to the industry over the past year. Organised by Medcom, publishers of pharmacy and healthcare magazines across the UK, the awards provide the chance for NI's healthcare professionals to showcase their work in front of many of the profession's key opinion leaders.

BREATH Showcase at EU Parliament

BREATH PI's Keith Thornbury, Lorraine Martin and John Lockhart invited to attend an exhibition and reception in the European Parliament. The purpose of the event was to raise

awareness of the impact of EU funding, delivered via the PEACE and INTERREG Programmes, on the region (including the Border Region of Ireland, Northern Ireland and Western Scotland).
